Derived from: AMS, Gypsum, Milorganite, SOP, and Urea.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.

GENERAL INFORMATION

Spring Green-Up is formulated to kick start turf early in the spring by warming the soil. It provides enough nitrogen to start your lawn growing, but does not promote excess growth. The sulfates and iron in Spring Green-Up help promote deep, long-lasting color.

DIRECTIONS FOR USE

Spring Green-Up is formulated to bring lawns out of dormancy. If lawns have been damaged from severe winter or disease it is recommended to use GreenGuard 17-9-7 Lawn Starter-Builder to repair the damage.

Home Lawn:

General maintenance 5 lb per 1,000 sq ft or 250 lb per acre every 4-6 weeks. To maintain high traffic areas use 7 lb per 1,000 sq ft or 300 lb per acre every 4-6 weeks.

General Campus and Athletic Turf:

General Campus 6 lb per 1,000 sq ft or 250 lb per acre every 4-5 weeks.

Stadium Fields:

In Season 7 lb per 1,000 sq ft or 300 lb per acre every 4-5 weeks (high traffic areas may require more frequent applications). Off Season 5 lb per 1,000 sq ft or 220 lb per acre every 4-5 weeks.

Establishing Sod or New Seeding:

For sod apply 4 lb per 1,000 sq ft or 180 lb per acre before laying sod. Before planting seed apply 6 lb per 1,000 sq ft or 250 lb per acre to seed bed and incorporate into the soil. Reapply 6 lb per 1,000 sq ft 3-6 weeks later and every 4 weeks until fully established.
