Derived from: Gypsum, Milorganite, SOP, K-Mag, and Uflexx.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.

GENERAL INFORMATION

This controlled release formulation contains Uflexx and Milorganite, Sulfate of Potash, and Sul-PO-Mag. This formulation will provide 8-10 weeks of high quality turf and controlled growth. Lawn Maintenance contains humic materials and micronutrients: 1MG, 3.5S, 8Ca, and .6Fe. This product is also formulated to meet the specifications for MN DOT type 2 fertilizer, making it an inorganic, granular, no phosphorous fertilizer. Lawn Maintenance is a 100% controlled release nitrogen fertilizer.

GREENGUARD PREMIUM FERTILIZER
