CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.

GENERAL INFORMATION

This is an organically-based starter fertilizer developed to start seeds faster, enhance root development, and as a transplanting aid for bare root trees and shrubs. Plant Starter Plus contains all of the key building blocks essential to growing healthy plants. Plants started from seeds, cuttings, or plugs are bigger in size, look healthier, are easier to maintain, are more uniform in size, and easier to transplant when this product is used. Plant Starter Plus is a non-burning fertilizer safe for all plants.

DIRECTIONS FOR USE

Plant Starter Plus is designed to be incorporated into the soil. It is a non-burning fertilizer safe for all plants.

Divot Repair Mix or Top Dress:

To speed turf establishment, improve plant health, and build deeper roots, mix 6 lb of Plant Starter Plus to 1 cubic yard of soil or top dress mix.

Home Garden Use:

For first year flower beds, vegetable gardens, or perennial gardens apply 3 lb of Plant Starter Plus evenly over 100 sq ft and work into the soil. Reapply yearly using 1.5 lb per 100 sq ft For window boxes us 2 oz by weight per 4.5 sq ft.

Nursery and Garden Center:

Use 8 oz by weight of Plant Starter Plus or 3 cu ft bag of potting soil to start seeds, plugs, and cuttings. Mix 5-6 lb Plant Starter Plus to each cubic yard of soil when transplanting bare root trees and shrubs.

Transplanting Potted Shrubs or B&B Trees:

To prevent transplanting shock and start plants faster mix 8 oz by weight per 2'x2' hole. Mix into the top 10 inches of back fill soil.
