

GoldWing™

Improves Management of:

Clippings, mowing, trimming and overall quality of turfgrasses; improves stress tolerance, lateral stem development, root mass, overseeding establishment, turfgrass conversions and more

Grow Better Turf By Enhancing Its Quality, Not Its Quantity.

GoldWing™ is a low-odor MEC (Microemulsion Concentrate) formulation of the popular plant growth regulator trinexepac-ethyl. This proven active ingredient is widely used by turf managers on golf courses, lawns and other areas to improve density and uniformity of turf without stimulating unwanted growth. GoldWing can be applied

to all major cool- and warm-season turfgrass types. It's registered for use on golf course greens, fairways and roughs as well as residential, commercial and athletic turf. GoldWing can be used for edging various areas and may be mixed with marking paint.

Features

Foliar absorbed

Enhanced lateral plant development

Gibberellic Acid (GA) inhibitor

MEC (Microemulsion Concentrate) formulation

Minimal odor

Benefits

Enters the plant quickly (within 4 hours) to promote consistent performance; foliar activity means GoldWing is not directly affected by soil type

Strengthens turf while inhibiting vertical growth

Stimulates lateral growth and root development; improves and enhances turf quality compared to older chemistries

Outstanding mixing and handling; compatible with most commonly used products

Better to work with and apply

Directions For Use:

For warm-season turf, apply .062–.125 fl oz./m on golf greens and .125–.25 fl oz./m on fairways. For roughs as well as for residential/commercial areas, use .1–1 fl oz./m. For applications on cool-season turf, use .125 fl oz./m for golf greens and .125–.5 fl oz./m on fairways. Roughs and residential/commercial areas require .6 fl oz./m–1 fl oz./m. Use 4–2 fl oz./m for edging and banding, depending on the turf type. Wait to apply 1 hour after mowing, or wait to mow 4 hours after application. Apply in .5–4 gallons of water per 1,000 sq. ft. Do not apply more than 7 fl oz./m or 19 pts./acre per year.

Field Support:

When you need product or technical assistance, turn to Phoenix Environmental Care's local distributor network for responsive service and support. You can also direct any questions regarding GoldWing to 1-888-240-8856 for prompt attention.
