

Pre-Emergent Herbicides

Prodiamine 65 WDG

Crabgrass Control

Prodiamine 65 WDG - Broad Spectrum Pre-Emergent Herbicide is an excellent weed control product, especially as a pre-emergent herbicide and as a grass and broadleaf weed killer. Flexible application allows for both spring and fall use providing season long crabgrass and broadleaf weed control. Effectively controls annual bluegrass.

Rate: 0.75-1 pound per acre
Available in: 5 lb. jug

Quincept

Broadleaf & Crabgrass Control

Versatile post-emergent control of both grassy and broadleaf weeds. Produces fast visual control of crabgrass, foxtail, barnyard grass, and many broadleaf weeds. Quincept contains Quinclorac, 2,4-D, and Dicamba. Add Chameleon to increase performance.

Rate: 2.6-2.9 ounces per 1,000 square feet
7-8 pints per acre
Available in: 64 oz./2.5 gal jug

Tupersan

Crabgrass Control

Tupersan is safe to apply when seeding a new lawn without causing injury to germinating seedlings of most cool-season grasses. Active ingredient is Siduron. May be applied through the hydro-seeder or with a conventional spray tank.

Rate: 4-12 pounds per acre
Available in: 4 lb. bag

Always check product labels for specific rates.
