

# PRONTO<sup>®</sup>

## VEGETATION KILLER

### Season-long control of unwanted vegetation.

A non-selective herbicide for season-long control of unwanted vegetation. For use along fences, paved areas (including cracks and crevices), curbs, sidewalks, driveways, parking areas, brick walks, gravel paths, paths, patios, vacant lots, urban areas, recreational areas, play areas, and tennis courts – anywhere that you don't want anything to grow. Pronto<sup>®</sup> Vegetation Killer can also be used around homes, outdoor buildings and structures to maintain a neat and clean look.

Pronto Vegetation Killer readily mixes with water and is easy-to-use. For total vegetation control (including bare ground treatment) use spray equipment such as a backpack or pump-up sprayer. Weeds should be actively growing at the time of application for maximum herbicide activity. The addition of a surfactant to the spray solution will enhance performance and speed.

NOTE: Not available in Alaska.
